

18 December 1950

MEMORANDUM FOR: Mr. Wisner

SUBJECT: Agenda for NPSB Meeting 18 December 1950, 1600 hours

For your information and guidance there are provided comments as follows on the items listed on the agenda:

I. Presumably Mr. Barrett will raise these "matters" ab initio.

II. This is the X-high Nth time that the so-called Korea Plan has appeared on the agenda of the Board. The purpose of its consideration today is to review recommendations for execution of such portions of the plan as now may be appropriate. Such recommendations have not been made available in advance.

III. General McClure has recently been much taken by the possibility of use of [redacted]. Two meetings ago he stated that he was looking into the matter and wanted to make a few choice remarks subsequently. You may care to comment following his presentation. I should imagine that whatever he may say well may verge into the matters presently being handled by NEA in OPC.

IV. A copy of this report is attached, and according to my view, is a well written, highly provocative, timely piece. Also attached is a comment upon this paper which I have asked [redacted] to prepare for your use and guidance in connection with the meeting this afternoon.

25X1A

V. Recommend your concurrence in the proposal to prepare a roster of personnel for psychological warfare.
